

VALIDATION SOLUTION

Offline Voucher Printer

VPrint XT is an innovative, offline voucher printer that offers multiple ways of printing a single validation/discount to a ticket: continuous mode, either with fan fold tickets, paper roll, or single mode. Its high flexibility allows the ability to not only to customize the ticket with a distinctive layout, but also to associate a specific kind of validation/voucher to each of its 4 buttons. Among its smart features, VPrint XT allows users to set up a Wi-fi hotspot, and accessibility to any wireless device such as smartphone, PC, and tablet. VPrint XT extended functionalities can be controlled and configured via an intuitive web dashboard: from mass print and counter check to ticket layout update, the printer can be easily and comprehensively managed.
