

J4H

A digital solution for hotels and hospitality facilities to seamlessly manage guest parking.

Gift your Hotel Guests a 5-Star Parking Experience

Unlock a streamlined smart solution tailored for your hotel and explore the benefits of managing your guest parking with J4H:

Elevation of customer experience

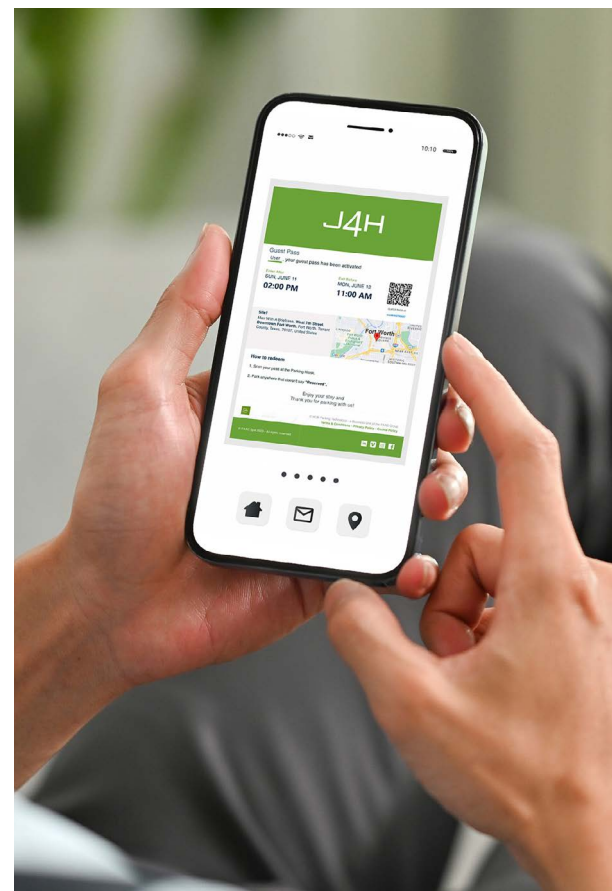

J4H elevates customer experience in hospitality by streamlining parking for hotel guests. Through an intuitive and user-friendly application hosted in the cloud, parking operators and hotel administrators have a real-time complete overview of parking operations.

Easy registration of guests

J4H facilitates the registration of guests and the issuance of Guest Passes in just a few simple steps. The hotel administrator has complete autonomy in managing Guest Pass information and check-in/out times.

No expensive hardware integrations

J4H outweighs the need for expensive HW integrations and intricate network configurations. Hotels enjoy a smart and integrated solution directly from their front desk, with flexible options to generate Guest Passes.

J4H is the latest addition to HUB's ecosystem of Digital Solutions. Contact your local sales rep to explore them all!

EMPOWER YOUR GUESTS WITH DIGITAL PASSES

BOOK IN ADVANCE

offer a Guest Pass complete with license plate details and a QR code with the online room reservation, allowing guests direct entry to the hotel parking upon arrival.

PARK FIRST, CHECK-IN LATER

transform a temporary ticket into a convenient and personalized Guest Pass.

CHECK-IN FIRST, PARK LATER

upon check-in at the reception, generate a Guest Pass valid for the entire stay, then print it or send it via email to the guest.

Benefits for parking operators and hotel administrators:

-  Easy creation of standard guest passes, access policy, and overstay rate, thus simplifying staff tasks
-  Quick access to Guest Pass-related information and updates
-  Hotel-specific reporting, providing real-time data on revenue and usage patterns
-  Enhanced parking experience for guests, contributing to increased customer satisfaction
-  Full integration with the entire HUB Platform

Satisfied guests:

-  Frictionless entry and exit with License Plate Recognition or QR code
-  Gain access to your pass details by receiving them in advance directly to your email
-  Enhanced parking and lodging experience, without the worry of searching for a parking spot
